

Community Facilities Study Committee
Orientation Meeting
Tuesday, September 1, 2015

The orientation meeting for the committee was held on Tuesday, September 1, 2015. Most committee members and alternates were able to attend. Stephen Ripper, Chairman of the Board Facilities Committee welcomed the group and explained the important role the committee will play in developing our master plan for our facilities for the next decade. Kelly Harper, Director of Facilities, reviewed the engineering study, community committee, and educational program portions of the planning process. Nancianne Edwards, Assistant Superintendent, reviewed some key information about the committee's role, transparency and communication, security issues, and tour format. David Schrader and Bruce Bachtle of Schradergroup, our Master Plan consultants, provided an overview of the master planning process and of the District's facilities. The next meeting of the committee (first tour) is scheduled for Haycock Elementary School next week.
