The Quakertown Community School District’s 21st Century Learning Initiative provides students the opportunity to borrow a district-owned Chromebook/laptop computer for use during and after school hours. Students who select this option:

- May pay a $35.00 non-refundable Accidental Damage Protection (ADP) fee each year to cover damages that may occur while in the possession of the student. This fee will also provide the student the option to keep the device at the end of their senior year. (Please see School Board approved requirements listed on the technology website)

- Understand that the annual ADP fee will cover ONE incident per year such as the following:
  - Unintentional dropping of the device
  - Liquid spills
  - Power surges
  - Natural disasters
  - Theft of the device even when adequate security measures have been taken (theft claim must be supported by an official police report...false claims are subject to insurance fraud charges)

  Please note that the above examples assume that reasonable security and protection measures have been taken by the student to protect the district equipment.

- Understand that any damages that occur to district-owned equipment due to the student’s negligence may result in financial accountability on the part of the student. Such damages may include:
  - Damage caused as a result of horseplay in the vicinity of the device
  - Damage caused by storing items in the carrying case other than an AC adapter and USB memory stick (e.g. pens, pencils, books, folders, calculators, etc.)
  - Damage caused by excessive heat (Device must be stored in a climate controlled environment)
  - Theft of the device resulting from inadequate security precautions
  - Missing or lost device

- Lost or stolen equipment may result in prorated financial accountability.

Please complete the following:

**ADP option:**
- [ ] Payment of $35.00 is enclosed (cash, check, or money order)
- [ ] Exempt from payment
- [ ] Opt-out (I understand any damages including theft will be my financial responsibility and upon graduation my child will NOT keep his/her device. QCSD strongly advises taking the ADP coverage.)
